Using Just in Time Teaching In An Upper-Division Elective: Experiences and Thoughts JEFF LOATS, Metropolitan State College of Denver — Having used Just in Time Teaching (JiTT) for 5 years in introductory courses I am now using it in an upper-division course (nuclear & particle physics) for the first time along with Peer Instruction & “clickers”. A brief anecdotal discussion of my experiences and student attitudes towards these techniques and how they fit into the upper-division curriculum.

Jeff Loats
