Abstract for an Invited Paper  
for the APR05 Meeting of  
the American Physical Society

**Is the Robust Nuclear Earth Penetrator Robust?**

JOHN AHEARNE, Sigma Xi

The Administration's proposal to develop a Robust Nuclear Earth Penetrator led to controversy in Congress. Congress eventually rejected funding for the proposal and also requested that the National Academies study the concept. If the report has cleared classification review and been approved for release, this talk will cover the main points of the study.
