Abstract for an Invited Paper  
for the APR05 Meeting of  
the American Physical Society

**Recent QCD Results From the Tevatron**

VIVIAN O'DELL, Fermi National Accelerator Laboratory

We report on recent QCD results in  $p\bar{p}$  collisions at  $\sqrt{s} = 1.96$  TeV using data collected by the DØ experiment during 2002-2004 at the Fermilab Tevatron. Results on jet physics, direct photon production, and inclusive b jet cross sections will be presented.
