

Abstract Submitted
for the APR06 Meeting of
The American Physical Society

A measurement of the relative phases and amplitudes of $D^0 \rightarrow K^{*+}K^-$ and $D^0 \rightarrow K^{*-}K^+$ PARAS NAIK, University of Illinois, CLEO COLLABORATION — Using a Dalitz Plot technique to investigate $D^0 \rightarrow K^+K^-\pi^0$ decays in the CLEO III data set, we have measured the relative amplitudes and phases of the charmed decays $D^0 \rightarrow K^{*+}K^-$ and $D^0 \rightarrow K^{*-}K^+$.
