Abstract for an Invited Paper
for the APR06 Meeting of
the American Physical Society

The Spin Structure of the Nucleon – Present Knowledge and Open Questions

WERNER VOGELSANG, Brookhaven National Laboratory, Nuclear Theory Group and RBRC

The talk gives an introduction to the spin structure of the nucleon. It describes our present knowledge and addresses the most compelling open questions and their theoretical background. It also gives an overview of the current activities in the field in both theory and experiment.
