

Abstract for an Invited Paper
for the APR08 Meeting of
The American Physical Society

A Brief Overview of Physicists Activities at Boeing

STAN LAWTON, Technical Fellow, The Boeing Company

Dr. Stan Lawton is a Technical Fellow in Materials, Processes and Physics in Boeing's Phantom Works RD component. In thirty years of aerospace research at McDonnell-Douglas and Boeing, he has worked in areas as diverse as high-energy laser development, materials synthesis and combustion chemistry. Dr. Lawton will briefly discuss his career and some physics-related activities at Boeing.
