Abstract for an Invited Paper  
for the APR09 Meeting of  
the American Physical Society

**The Charge Form Factor of the Neutron**

BOGDAN WOJTSEKHOWSKI, TJNAF

I will present the charge distribution physics, experimental method and results of the recent measurement performed at TJNAF for 4-momentum transfer up to  $3.5 \text{ GeV}^2$ . The implications to GPDs models, flavor and isospin formfactors, as well as for the impact parameter dependent charge distribution in the neutron will be considered.
