Abstract for an Invited Paper
for the APR10 Meeting of
the American Physical Society

**W.K.H. Panofsky Prize in Experimental Particle Physics Talk: 40 Years of Neutrino Physics—A
Personal History¹**
EUGENE BEIER, University of Pennsylvania

In the past forty years neutrino physics has made great advances. Some of the steps and missteps that were taken on the path from the 1960's to the present will be discussed. Particular attention will be given to the development of solar neutrino physics.
