

Abstract for an Invited Paper
for the APR10 Meeting of
The American Physical Society

An Introduction to Nuclear Physics - Teaching from the Nuclear Science Wall Chart¹

ERIC NORMAN, Dept. of Nuclear Engineering, Univ. of California at Berkeley

The Nuclear Science Wallchart was developed in order to convey the basic concepts of nuclear science and to identify areas of current forefront research in this field for students at a variety of levels. In this talk, I will describe the major topics illustrated in the chart and will point to resources available to teachers to aid in the instruction of this material.
