Abstract for an Invited Paper
for the APR14 Meeting of
the American Physical Society

The Conferences for Undergraduate Women in Physics

SUSAN BLESSING, Florida State Univ

The APS Conferences for Undergraduate Women in Physics (CUWiP) are the continuation of a grass-roots collaborative effort that began 2006. The goals of the conferences are to increase retention and improve career outcomes of undergraduate women in physics. I will discuss the conferences, including organization and participant response, and encourage participation — of both students and institutions.
