

Abstract Submitted
for the APR15 Meeting of
The American Physical Society

LGBT Rountable Discussion on LGBT+ Issues in Physics — The LGBT+ Physicists group welcomes those who identify as gender sexual minorities, as LGBTQQIAAP+, or as allies to participate in a roundtable discussion on mentoring physicists. The session will provide an opportunity to learn and discuss successful mentoring strategies at different career stages for physicists in all environments, including academia, industry, etc. Allies are especially welcome at this event to learn how to support and mentor LGBT+ physicists. Participants are also encouraged to attend the Diversity Reception.
