Abstract for an Invited Paper
for the APR16 Meeting of
the American Physical Society

Higgs physics beyond the Standard Model¹

HEATHER E. LOGAN, Carleton University

This talk will review the status of beyond-the-Standard-Model Higgs physics at the LHC from a theory perspective – in particular the measurements of production and decay of the 125 GeV Higgs boson and searches for the additional states that appear in extended Higgs sectors.

¹Supported by the Natural Sciences and Engineering Research Council of Canada.
