

Abstract Submitted
for the APR17 Meeting of
The American Physical Society

Progress in Astrophysics of Cosmic Rays¹ IGOR MOSKALENKO,
Stanford University — I will review recent progress in Astrophysics of Cosmic Rays
and new challenges. I will discuss measurements that have to be done to address
these challenges and to further advance our understanding of the phenomenon of cos-
mic rays, mechanisms of their acceleration and interactions with interstellar medium.

¹Partial support from NASA Grant No. NNX13AC47G is greatly acknowledged.
