

Abstract Submitted
for the APR21 Meeting of
The American Physical Society

Data on Diversity and Careers from AIPs Statistical Research Center RACHEL IVIE, PATRICK MULVEY, American Institute of Physics Statistical Research Center — The American Institute of Physics (AIP) is an indispensable resource for data on education, careers, and diversity in physics, astronomy, and other physical sciences. AIPs Statistical Research Center is continuously updating the latest data for students, job seekers, and educators. Learn about career paths taken by physicists. Become familiar with tools you can use to better understand the employment landscape, including salaries and field of employment. Come see the latest statistics on women and people from underrepresented groups at all levels, including faculty members. We will also introduce you to our new interactive tool to visualize trends in the representation of people from minoritized groups who earn bachelor's degrees in physical sciences.
