

Abstract Submitted
for the CUWIP21 Meeting of
The American Physical Society

Session 5: Resume and Interviewing Workshop — Join us for a conversation on resumes and various interviewing processes. Exploring new career opportunities is often an intimidating but necessary part of life and being able to effectively present oneself on paper and in person takes practice. In this workshop we plan to share some of our experiences with navigating these areas to help those of you who want to sharpen your skills. We also plan to leave plenty of room for audience questions, so come prepared for a discussion centered around what you want to learn. Panelists: Crystal Bailey (APS), Catherine Erickson (Google Quantum AI), Zabrina Johal (General Atomics), and Preethi Nair (University of Alabama)
