Referee Reports and Author Rebuttals: What to do or not to do

GEORGE BASBAS, American Physical Society — Come hear the editors tell how to compose a review and how **not** to rebut one. The session will begin with a short talk to reveal what editors are confronted with as they assess the debates between authors and reviewers, and present the editors' ideas about how to make life easier. The floor will be open for questions and discussions. Refreshment provided. The aim is to give insight and advice in these vital matters of research publication.
