

Abstract Submitted  
for the DAMOP11 Meeting of  
The American Physical Society

**Status of the University of Oklahoma Search for the Signature of an e-EDM in the Interaction of the PbF Molecule with an Electric Field**  
N.E. SHAFER-RAY, University of Oklahoma — This talk presents an update of an ongoing effort at the University of Oklahoma to measure the electric dipole moment of the electron (e-EDM) by studying the interaction of a molecular beam of  $^{208}\text{Pb}^{19}\text{F}$  molecules with an external electric field.
