

Abstract Submitted
for the DAMOP11 Meeting of
The American Physical Society

Physical Review and You as Author, Reader, or Referee —How do you get a paper accepted in PRA or PRL? What happens once you have submitted a manuscript, or a referee report? What's new about the journals? (Hint: Physical Review X.) Learn how to write a good referee report, and how (not) to rebut one. Come hear the editors talk, ask them questions, and tell them what you think! The session will begin with a short talk aimed at (not only) newer authors and referees, followed by a brief discussion of recent developments surrounding the journals. After that, the floor will be opened up for a panel discussion and questions about all matters Physical Review. Audience participation is strongly encouraged!
