

Abstract Submitted
for the DFD17 Meeting of
The American Physical Society

Teaching with Stereoscopic Video: Opportunities and Challenges¹ EVAN VARIANO, University of California, Berkeley — I will present my work on creating stereoscopic videos for fluid pedagogy. I discuss a variety of workflows for content creation and a variety of platforms for content delivery. I review the qualitative lessons learned when teaching with this material, and discuss outlook for the future.

¹This work was partially supported by the NSF award ENG-1604026 and the UC Berkeley Student Technology Fund
