

Abstract Submitted
for the DNP08 Meeting of
The American Physical Society

Energy-Dependent Q Values for Fission¹ RAMONA VOGT, LLNL
and UC Davis — We extend Madland's parameterization of the energy release in
fission [1] to obtain the dependence of the fission Q value for major and minor
actinides on the incident neutron energies in the range $0 \leq E_n \leq 20$ MeV.

[1] D. Madland, Nucl. Phys. A **772** (2006) 113.
