

Abstract for an Invited Paper
for the DNP10 Meeting of
The American Physical Society

Neutrino Mixing of 7-Beryllium and Low-Energy 8-Boron Solar Neutrinos

ALEX WRIGHT¹, Princeton University

I will review and discuss recent results on the mixing of low- and intermediate-energy solar neutrinos, obtained with the most recent searches for solar neutrinos. I will review the perspective for future findings in this field.

¹In collaboration with Cristiano Galbiati, Princeton University
