The American Physical Society

EMMA, a Recoil Mass Spectrometer for TRIUMF's ISAC-II Facility¹ BARRY DAVIDS, TRIUMF, EMMA COLLABORATION — EMMA is a recoil mass spectrometer for TRIUMF's ISAC-II facility in the final stages of installation and commissioning. In this talk I will briefly review the spectrometer's design capabilities, describe recent progress in its installation and commissioning, and discuss plans for its initial experimental program.

¹This work was supported by the Natural Sciences and Engineering Council of Canada. TRIUMF receives federal funds through a contribution agreement with the National Research Council of Canada.
