

Abstract Submitted  
for the GEBPC17 Meeting of  
The American Physical Society

**What can Physics Societies do for you?** MONICA PLISCH, THEODORE HODAPP, American Physical Society, RENEE HORTON, National Society for Black Physicists, CATHY O'RIORDAN, American Institute of Physics, JESS PANDO, National Society for Hispanic Physicists — Physics professional societies, including the National Society for Hispanic Physicists, the National Society for Black Physicists, the American Physical Society, and the American Institute of Physics have a number of programs, activities and resources that can benefit physics graduate programs. A brief presentation by leaders from each society will be followed by small group and large group discussion, with a goal of identifying new opportunities for professional societies to work together with physics departments to advance physics graduate education.
