

Abstract Submitted  
for the GEC19 Meeting of  
The American Physical Society

**New Collaborative Low-Temperature Plasma Research Facilities  
Open for all Users** — Department of Energy, Fusion Energy Science has funded two collaborative plasma research facilities that are being hosted at Princeton Plasma Physics Laboratories (PPPL) and Sandia National Laboratories (SNL) to offer collaborators from the international low-temperature plasma community access to world class capabilities and expertise at these institutions. An overview of these capabilities will be described and information on access to these facilities will be provided.
