

Abstract Submitted
for the MAR09 Meeting of
The American Physical Society

A comparison of the elastic moduli of an animal and plant virus
D. GUI, X. CHEN, A.L.N. RAO, S. GILL, U. MOHIDEEN, R. ZANDI, University of
California, Riverside, CA — We have used Atomic Force Microscopy (AFM) to image
single Sindbis and BMV viruses. The AFM was then used in force spectroscopy mode
to measure their elastic Moduli. The similarities and differences will be discussed.
