The American Physical Society

Meet Your Future: An Interactive Panel on Industry Careers

STEVEN LAMBERT, American Physical Society — There will be a brief presentation showing some statistics about careers in physics followed by a panel discussion. The panelists are:

Pavel Kornilovich, HP Inc., Senior Technologist
Erik Lucero, Google Santa Barbara, Hardware Engineer
Raja Rajasekaran, Toptica-USA, Western Regional Sales Application Manager
Tiffany Santos, Western Digital, Principal Research Engineer
Krysta Svore, Microsoft, Principal Researcher Research Manager

Each panelist will introduce themselves and give a brief overview of their career path. We'll then open it up to audience participation. Bring your questions about working in the private sector: daily responsibilities, work environment, how to prepare for this path, making contacts, and anything else you'd like to hear about. We look forward to an interactive and lively session.
