

NWS11-2011-000021

Abstract for an Invited Paper
for the NWS11 Meeting of
the American Physical Society

The ILC - Straight to the Future

STANLEY SCHRIBER, Boise State University

An introduction to the International Linear Collider (ILC) includes management, international activities to date, facility rationale and the present R&D situation. Details will be provided on activities underway, and reasons for choices of parameters and systems that have big effects on costs. A summary will include a look forward for a project construction start.
