Three Terms of E-CLASS Data for an Introductory E&M Lab

HELEN MAE COTHREL, Kettering University — We collected E-CLASS data for three terms of Physics 2 (electricity and magnetism) lab prior to rolling out a redesigned version of the course. This poster will examine this baseline data and connect it to our course changes and goals for the project. We are collecting three more terms of E-CLASS data from the new version of the course to assess the impact of the course redesign.
