

Abstract Submitted  
for the OSF20 Meeting of  
The American Physical Society

**Two-particle correlations for studying jets at RHIC and LHC<sup>1</sup>**  
JUSTIN FRANTZ<sup>2</sup>, Ohio University — In this talk I will present of summary of some recent two-particle correlation results for RHIC experiments including some outlook for the new sPHENIX experiment.

<sup>1</sup>Two-particle correlations for studying jets at RHIC and LHC

<sup>2</sup>I have a small preference for the Friday parallel session. A 2nd abstract on behalf of my undergrad student Michael Riehl I would request be in same session as me. A 3rd talk by my post-doc Bing Xia is OK for Fri or Sat.
