

Abstract Submitted  
for the OSS13 Meeting of  
The American Physical Society

**Changing the gravity** PHILIP SHIN<sup>1</sup>, None — We can figure out the reason for the world shape by the gravity. The world is not changing as we believe in the gravity. If we change the gravity, the world is changing into the alien. Also the atomic bomb is blowing so the red color is changing into another color, so there is no rule. Before the eschatology, the ant is moving randomly, so there is no standard rule for its moving. When the eschatology comes, the random moving is finished. So we build the gravity as the standard by one. We live the reason to build the gravity, forever.

<sup>1</sup>Why the world is not changing the shape and I live with only two eyes forever with my mind.
