

Abstract Submitted
for the OSS18 Meeting of
The American Physical Society

Reimagining Education at Scale: the University of Michigan's Foundational Course Initiative TIMOTHY MCKAY, University of Michigan — The University of Michigan educates at scale, introducing thousands of students every year to topics as various as Linguistics, Physics, and Screen Arts. Large foundational courses play an outsize role in this process. This year, we are launching a *5millioncampus – wideFoundationalCourseInitiative* to establish a new, 21st century collaborative approach to the creation and *yearperiod* to design, develop, and deliver next generation versions of foundational courses.
