Abstract for an Invited Paper
for the PHYSTC19 Meeting of
the American Physical Society

Share-a-thon

VINCE KUO, Colorado School of Mines

Do you want to get a new idea for preparing physics teachers that you could implement right away? Do you have something that worked really well for you and could be used elsewhere? Come to PhysTEC's second Share-a-thon session! In this workshop, participants will share successful tips and ideas for preparing physics teachers that could be generalized to be used anywhere. Participants will learn about multiple things they could do to make a big impact in physics teacher preparation at their own institutions. Come to share ideas or get some new ones. If you're interested in presenting your idea, please contact Vince Kuo: hkuo@mines.edu.
