

Abstract Submitted  
for the PHYSTEC17 Meeting of  
The American Physical Society

**Kick-Starting the Physics Secondary Education Degree at Boise State University** DARYL MACOMB, TIFFANY WATKINS, Boise State University — The Physics Department at Boise State University is in the final year of our three-year PhysTEC recruiting grant. Our PhysTEC efforts were accompanied by significant changes to the physics degree program, and the introduction of IdoTeach - a UTeach replication program. These factors have combined to provide us with a significant increase in secondary education majors. In this poster we describe our current outreach practices, the status of and growth in the secondary education degree program, plans for sustainability, and concerns/issues.
