Abstract for an Invited Paper
for the SES10 Meeting of
the American Physical Society

The Status of Geaux Teach: Adventures in Revamping the Secondary Education Physics Concentration¹
DANA BROWNE, Louisiana State University, Dept. of Physics and Astronomy

For the past five years, L.S.U. has been engaged in revamping its secondary education science teaching program for its science majors. Our new program, Geaux Teach, (www.lsu.edu/secondaryed/) is modeled after the GoTeach program at U.T. Austin. This status report will discuss our prior program, how we got started, where we are now, what is left to do, and the changes we have seen.

¹In collaboration with Linda Allen, LSU, Dept. of Chemistry; Sharon Besson, LSU, Cain Center for STEM Literacy; Patti Exner, LSU, College of Education; Karla Lemoine, LSU, College of Science; and E. William Wischusen, LSU, Dept. of Biological Sciences.
