The American Physical Society

**Exclusive semileptonic B meson decays at Belle** XIAO LONG WANG, Virginia Tech, BELLE COLLABORATION — I will report on the results from the Belle experiment on exclusive and inclusive  $B$  meson semileptonic decays to charmed mesons as a probe of the CKM matrix element  $|V_{cb}|$ . The exclusive modes include  $B \rightarrow D_s^{(*)} \ell \nu$ . The discrepancy between the inclusive and sum-of-exclusive branching fractions will be reviewed.
