Abstract for an Invited Paper
for the SES13 Meeting of
the American Physical Society

From academia to government and back to academia

JOSEPH REINER, VCU

My professional experiences as a Ph.D. physicist have been influenced by both the two-body problem and two major decisions. The first was to change fields from quantum optics to analytical chemistry and the second was to leave government for an academic position after 8-years of employment. I will discuss the pros and cons of both decisions and offer my perspective for navigating a career in science with a Ph.D.
