

Abstract Submitted  
for the SES16 Meeting of  
The American Physical Society

**Computation in Physics: Resources and Support**<sup>1</sup> LARRY ENGELHARDT, Francis Marion University — We will describe exciting new resources and support opportunities that have been developed by “PICUP” to help faculty to integrate computation into their physics courses. (“PICUP” is the “Partnership for Integration of Computation into Undergraduate Physics”). These resources include editable curricular materials that can be downloaded from the PICUP Collection of the ComPADRE Digital Library: [www.compadre.org/PICUP](http://www.compadre.org/PICUP). Support opportunities include week-long workshops during the summer and single-day workshops at national AAPT and APS meetings.

<sup>1</sup>This work is supported by the National Science Foundation under DUE IUSE grants 1524128, 1524493, 1524963, 1525062, and 1525525.
