Abstract for an Invited Paper  
for the SES19 Meeting of  
the American Physical Society

**The Hall A APEX experiment**

ALEXANDRE CAMSONNE, Jefferson Laboratory

The Hall A APEX experiment is looking for a new interaction mediated by a light boson  $A'$ . The APEX experiment successfully ran in Hall A from January to March 2019. I will present the specific Hall A experimental setup, the expected sensitivity for the experiment and preliminary results on the detector calibration.
