

Abstract Submitted  
for the TS4CF08 Meeting of  
The American Physical Society

**Angelo State Society of Physics Students Science Outreach: West Texas Road Trip 2008**<sup>1</sup> LACY ESTES, TONI SAUNCY, Angelo State University Department of Physics — The Angelo State Society of Physics Students readily embraces the opportunity to give back to the community. For the past three years, the ASU Peer Pressure Team has presented science demonstrations to elementary and junior high students in the West Texas area. The annual week-long trip involves college students seeking to inspire a younger generation about physics and science in general. The Road Trip 2008 took ten undergraduate students on a nearly 600 mile round trip. The reactions and responses from the students, teachers and administrators received by the local SPS chapter's efforts have been overwhelmingly positive, and opportunities continue to present themselves.

<sup>1</sup>This award was funded in part by the Angelo State University Presidents Circle.
