The American Physical Society

TS AAPT Workshop 2 – CASTLE on line TRINA CANNON, East-field College — CASTLE has been a valuable curriculum for learning electricity. But the bulbs and wires are often a hindrance with setting up and cause a lost in time. Trouble shooting can often lead to distraction and frustration for both teacher and student. Here is a strategy that can get the job done, with no cost to you and the students can repeat the whole lab away from you. Bring a lap and get the plan. Make sure your laptop can logon the network at Baylor. (Some school laptops prevent this, so check with the IT department before you leave school) .
