Physics Online: PHYS 1405 JENNIFER PARSONS, Tyler Jr. College
— In the current push toward online and hybrid courses, one of the greatest challenges is dealing with the laboratory component. Tyler Jr. College is in its third semester offering online sections of PHYS 1405 (Elementary Physics I lecture and lab). This talk addresses the current course design (including labs), as well as some of the challenges and successes encountered so far. Preliminary data comparing the face-to-face and online sections will also be presented.
