

Abstract Submitted
for the TSF17 Meeting of
The American Physical Society

Physics 1405 Project¹ THOMAS O'KUMA, BERNARD FONGANG, EVAN RICHARDS, STEPHANIE INGLE, Lee College — Through a federally funded grant (FIPSE), Lee College offered a number of weekend only degree programs, two of which required Physics 1405. The weekend Physics 1405 was offered for the first time in Fall 2016 with a reduced face-to-face class time requiring online instruction. In this presentation, we will discuss our initial efforts to address this weekend course from which this project has evolved. This project involved both full-time and adjunct faculty developing and implementing the resources developed for this project. The initial implementation is occurring during Fall 2017.
