

Abstract Submitted
for the TSP21 Meeting of
The American Physical Society

HyFlex-ish EVAN RICHARDS, Lee College — With the return to on campus instruction in the time of COVID, we are all faced with questions on how can we provide on campus instruction, while at the same time supporting the progression of students who are required to quarantine. Ill discuss my solution to this challenge as implemented in both a small, studio lab as well as in a larger, SCALE-UP facility, neither of which were formally designed for a true HyFlex modality.

Evan Richards
