

Abstract Submitted  
for the TSS12 Meeting of  
The American Physical Society

**Small Telescope Exoplanet Transit Search (STExTS) Transit Candidates in the Open Cluster Dolidze-Dzimsevjli 9 (DD9)** BLAISE DUFRAIN, RICHARD OLENICK<sup>1</sup>, ARTHUR SWEENEY, ANDREW BECHTER, ERIC BECHTER, University of Dallas, STExTS TEAM — The STExTs project searched for transit candidates in the open cluster Dolidze-Dzimselshvili 9 in Hercules for 37 nights using a f/2.8 152 mm astrograph. Approximately 11,000 images were obtained, processed, and analyzed for signatures of transits. We will present preliminary candidates and orbital periods.
