AAPT Workshop W3: Using TIPERs in Your Physics Classes
STEVE KANIM, TOM O'KUMA, New Mexico State, Lee College — TIPERs
(Tasks Inspired by Physics Education Research) are pencil and paper tasks that can
be used in a wide variety of physics courses (from high school to university). In this
workshop, we will illustrate some TIPERs and help participants develop their own.
Workshop materials will include published TIPERs and ranking tasks.
