

Abstract Submitted
for the TSS21 Meeting of
The American Physical Society

How to Pick the Right Graduate Program BRAD CONRAD, Society of Physics Students AIP — Physics and astronomy majors have a lot of choices when it comes to graduate study. This interactive workshop will outline the choices available to you, highlight the differences between your options, provide you with data to make well informed choices, and give you a starting point for your decision making process. Well end with how to effectively communicate your passion during interviews and essays.
