

TSS21-2021-000016

Abstract for an Invited Paper  
for the TSS21 Meeting of  
the American Physical Society

### **How Community Can Influence How You Teach**

GLEND A DENICOLO<sup>1</sup>, Suffolk County Community College

In this talk I will share my experience from my time on the Committee on Physics in Two-Year Colleges of the AAPT during the transition to remote teaching in 2020. I will highlight some of the resources and knowledge gathered through weekly zoom meetings, such as alternative assessments and remote lab activities. Long before 2020, ideas and inspiration collected at AAPT-related meetings and workshops shaped my views of what it is to be a good educator. I will be showcasing a few of the ideas I have adopted in my classes and at my institution.

<sup>1</sup>Invited Paper 1 for session Physics Teaching During the Era of the Pandemic
