

Abstract Submitted  
for the 4CS19 Meeting of  
The American Physical Society

**Panel Discussion—Careers in Industry** — Most physicists do not become academic professors, yet most of the physics careers seen by students are in academia! This discussion will focus on experiences of non-academic physicists to give insight and advice for all physicists. The panelists will discuss their career path, after which we will take questions from the audience for the panelists. Please bring you inquisitiveness to this important discussion. Panelists include:

Ben Ferguson (Raytheon)

Matt Kim (Quanterra)

David Giltner (Turning Science)

Jamie Winterton (Global Security Initiative, ASU)
