A Search for $B_d^0 \rightarrow D_s^{(*)-} D_s^{(*)+}$ Decays ASISH SATPATHY, University of Texas at Austin, BABAR COLLABORATION — We report on a search for the decays $B_d^0 \rightarrow D_s^{(*)-} D_s^{(*)+}$ from a data sample of 232 million $\Upsilon(4S)$ decays into B meson pairs collected with the BaBar detector at the PEP-II asymmetric-energy e^+e^- collider.
