Abstract for an Invited Paper
for the APR06 Meeting of
the American Physical Society

Scholars at Risk in Russia

YURI ORLOV, Laboratory for Elementary-Particle Physics, Cornell University

I will share my general thoughts on safe haven for scholars at risk, based on my own experience, and will discuss scholars at risk in Russia. At the present time, these are mostly scientists falsely accused of espionage. I will highlight the special issues this fact raises for providing support or safe haven for such scientists.
